Soudronic wire

Product Standards:

Soudronic standard 2001-0620

Composition:

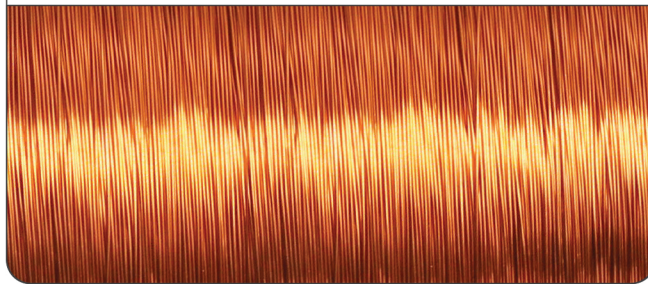

ETP Copper: According to C11000 standard code
OFE Copper: According to C10100 Standard Code
OF Copper: According to C10200 Standard Code

Physical specifications:

- Single wire
- Annealed
- Diameter: According to customer request
- Tensile strength: 245 - 285 Mpa
- Elongation: 22%-30%
- Resistivity (20°C): Lower than 0.15477 $\Omega \cdot g/m^2$

Uses:

Specially manufactured for welding machines
